

# HSNO Codes and Guidance

## Test Certifier Workshop

### 8 September 2015

Noel McCardle  
Senior Advisor  
1 Guidance and Standards

# Current HSNO Regime for Codes

- 58 approved codes
- Developed by industry
- Approved by the EPA
- Statutory defence.

# NEW HSW Regime for Codes

- Developed by WorkSafe
- May incorporate, adopt or apply another document
- Approved by Minister
- Not a defence
- Free on internet.

# What happens to HSNO Codes?

- In force under HSNO
- Not HSW codes
- Alternative means of compliance » Regs or SWIs.

# What happens to HSNO Codes?

Become “guidance” under HSW:

- EPA Codes – e.g. OPD
- Standards – e.g. NZ8409
- Industry Codes - e.g. Signage.

To appear in Regs or SWIs:

- Storage of explosives.
- Storage tanks.

# What happens to HSE Codes?

- E.g. ACOP -Prevention of sulphur fires and explosions
- Continue to apply
- May be converted to HSW ACOPs.

# Other guidance

- 181 Legacy Documents
- Work programme 2016 - ??
- Priorities:
  - Interpretive Guide
  - Fact Sheets
- General to Industry specific

# EVERYONE WHO GOES TO WORK COMES HOME HEALTHY AND SAFE
